

NativeScript

Community Chat 10/28/2020

@nativescript/core updates 🎉

* 7.0.13

* ListView cells transparent by default with iOS 14

* Repeater now supports multiple item templates using keys, just like ListView

* UIImage.imageWithData.async is not a function

<https://github.com/NativeScript/NativeScript/releases>

UI suite plugins

`nativescript-ui-dataform 7.0.4`

* fixed issue with template collection
handling like `.properties`

NativeClass in a single file

```
@NativeClass()  
class CustomNative extends NSObject {  
  
}  
  
export { CustomNative }
```

Q&A
